

Wonderful Weddings

Welcome to the Steadman's Bridal Registry ...

A wedding is an exciting event. Planning the wedding is part of that excitement, and it lasts for months. While planning the perfect wedding is fun and exciting, it's also time consuming and sometimes a bit overwhelming. Our Bridal Registry was created to help make the planning easier. A Bridal Registry allows the bride and groom to create a single list of gifts they would like to receive for their wedding. It also allows the wedding guests to see the gifts the bride and groom would like, and also which gifts have already been selected for them by other wedding guests. Simply print out this form, go through the lists of gifts, which are conveniently presented by category, make any notes you wish to and bring the form with you to Steadman's Housewares Department. One of our Bridal Registry staff will help you make specific selections and note them on a master list at our store. When your guests come in, we'll provide them with the list so they can select the perfect gift. Selected gifts are crossed off the list to avoid receiving duplicates.
