Feedbunks

Feeding just got easier with Stur-D feedbunks. The durable yet portable design allows for multipurpose use, outlasting all the others.

Bottomless Feedbunk

General Purpose Bunk

Grain Bunk

Bale Rack

Stur-D Products has made hauling big round bales easier and safer for nearly 25 years, with racks large enough and stout enough to handle the biggest of bales. Available in three lengths in either standard or folding models.

Cattle Guard

Stur-D's rugged cattle guards are as smooth as they are strong, built on a reinforced substructure which eliminates the need for added support. Simply dig the hole, drop in and back fill. Available in three lengths. Side wings also available.
